He's just entering the next aisle, one layer deeper into the huge kitchen, when he hears the two cowboys. way deep into the flesh of her memory, beyond the hope of excision, and prickle as long as she lived. They stopped by a small open square, enclosed on three sides by buildings with striped canopies over their many balconies and flowery windows. A preacher from the Mayflower 11, evidently anxious to make up for twenty years of lost time, was belaboring a mixed audience of Chironians from the corner of a raised wall surrounding a bank of shrubbery. He seemed especially incensed by the evidence of adolescent parenthood around him, existing and visibly imminent. The Chironians appeared curious but skeptical. Certainly there were no signs of any violent evangelical revivals about to take place, or of dramatic instant conversions among the listeners. society whose natures would keep them hanging on to the end regardless. Above all there remained Borstein, who had nowhere else? to attach a loyalty that his life had made compulsive. Borstein headed a force still formidable, its backbone virtually all of Stormbel's SD's. Because these elements needed to believe, they allowed Kalens to convince them that the presence of Chironians inside Phoenix was the cause of everything that had gone wrong. If the Chironians were ejected from the organism, health would be restored, the absented Terrans would return, normality would reign and prosper, and the road to perfecting the dream would be free and unobstructed. "But who decides who works here? Who appoints them to their jobs?" The boy follows his spry companion into this tented blackness. Pulling the tailgate up from the inside is. "Guard detail, file left and right by sections," Sirocco said at the front. "Section leaders forward." He moved out into the aisle, where the floor had folded itself into a steep staircase to facilitate fore-and-aft movement, and climbed through into the side-exiting lock chamber with Colman and Hanlon behind him while Red and Blue sections formed up in the aisles immediately to the rear. In the lock chamber the inner hatch was already open, and the Dispatching Officer from the shuttle's crew was carrying out a final instrumentation check prior to opening the outer hatch. As they waited for him to finish and for the rest of the delegation to move forward in the cabin behind, Colman stared at the hatch ahead of him and thought about the ship lying just on the other side of it that had left Earth before he was born and was now here, waiting for them after crossing the same four light-years of space that had accounted for a full half of his life. After the years of speculations, all the questions about the Chironians were now within minutes of being answered. The descent from the Mayflower II had raised Colman's curiosity to a high pitch because of what he had seen on the screen. For despite all the jokes and the popular wisdom, one thing he was certain of was that the engineering and structural modifications that he had observed on the outside of the Kuan-yin had not been made by irresponsible, overgrown adolescents. Arriving just then with a Dos Equis, the cowgirl waitress said, "When I was seventeen, I applied for a. of The X-Files, kid." Klunk I was born with. "And you're saying the Big Bang was something like that?" Gazing at Micky with a solemnity that she hadn't exhibited before, the girl at last said, "I better." "We have nothing to reconsider," Otto replied calmly. From a pocket of his jeans, he extracts a crumpled wad of currency, including the remaining proceeds. The atmosphere became more serious as Bernard and Lechat informed the Chironians that they now knew what the Kuan-yin was and what it could do. "We appreciate that you had to assume that the ship from Earth would be heavily armed and that it might have adopted an overtly hostile policy from the beginning," Lechat said, pacing about the room. "But that hasn't happened, and there are still a lot of people up there who are not a threat to anyone. The handful who are in control now are not representative, and their remaining support will surely erode before much longer. I'm anxious for whoever controls that weapon of yours to be aware of the facts of the situation. There can be no justification now for a tragedy that could have been avoided." recent events in this room, the feeling was now palace-of-the-Martian-king, creepy and surreal. and when you're a nine-year-old girl, even an unusually smart one with a gift for gab, you can't just pack. He feels for the light switch and clicks it on and immediately off, just to get a glimpse of his surroundings. "Nobody told me anything." "The video monitoring points around the ship are all activated at the moment, and I'm coupled into the net. I can see what's going on everywhere. Go ahead. It's okay. The round cover on the wall next to you is an inlet to a trash incinerator. You can use it as an ashtray." Down in the inner lock, Colman and Swyley were standing with Major Lesley while behind them the contingent from D Company was already bounding through in the low gravity of the Spindle to join the SD's deploying toward the outer lock. "You took a hell of a chance, Sergeant," Lesley said. Instead, she told herself that now more than ever, she needed her anger, because it was her fiery wrath. matter of principle. Born to wealth and blessed with great beauty, she would skate through life with a. "Often enough that it seems like always." vulnerability. But while remembered moments of their encounter now brought a smile to Micky, she was.
